

ALFWorld Tasks

→ Ongoing → Continue

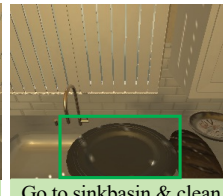

→ Deviated → Correct

→ Completed → Transition

Task 1

Clean a plate and put on the diningtable.

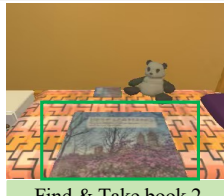

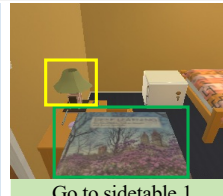

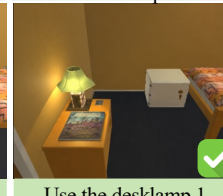

Subgoal 1: Find and take the plate				Subgoal 2: Clean the plate		Subgoal 3: Place plate on diningtable	
		Desired State $\chi_{1,1}^d$ $\langle \text{Inventory, plate, held} \rangle$ Execution State $s_{1,t}^e$ Inventory: bowl 1 held ... Condition Relation Contradicted	Deviated Corrective Reflection: I picked up the wrong object. I should put bowl 1 back and continue searching for plate.				
Search for plate	Take bowl 1			Put back & Search plate	Take plate 1	Go to sinkbasin & clean	Go to diningtable & place

Task 2

Look at book under the desk lamp.

Subgoal 1: Find and take the book				Subgoal 2: Find the desk lamp		Subgoal 3: Turn on the desk lamp	
		Desired State $\chi_{1,1}^d$ $\langle \text{Inventory, book, held} \rangle$ Execution State $s_{1,t}^e$ Inventory: book 2 held ... Condition Relation Supported	Completed Subgoal 1: Find and take the book Memory 1: The robot is holding book 2 and observed desk lamp on sidetable 1	Desired State $\chi_{2,1}^d$ $\langle \text{Visible, desk lamp, true} \rangle$ Execution State $s_{2,t}^e$ Inventory: book 2 held Target visible: book 1 ... Condition Relation Unresolved	Ongoing Think: Memory 1 indicates that the desk lamp is on the sidetable. I should go there to finish the subgoal.		
Go to sidetable 1	Find & Take book 2					Go to sidetable 1	Use the desk lamp 1
