**Desired State**  $\chi_{3,1}^d$   
< Inventory, orange, held >  
**Execution State**  $s_{3,t}^e$   
Inventory: orange bottle held  
.....  
**Condition Relation**  
Contradicted

### Deviated

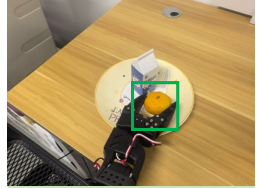

**Corrective Reflection:**  
I picked up the wrong object. I should put orange bottle back and take the orange.

Put orange bottle back

Take the orange

Put orange on plate

### Subgoal 5-6

Take the bread  
&  
Put the bread on plate

**Desired State**  $\chi_{5,1}^d$   
< Inventory, bread, held >  
**Execution State**  $s_{5,t}^e$   
Agent location: diningtable  
.....  
**Condition Relation**  
Unresolved

### Ongoing

**Think:**  
Memory 1 indicates that the bread is in the kitchen. I should go there to take the bread.

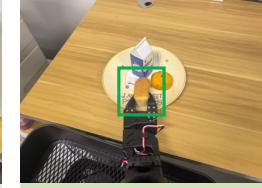

Go to kitchen

Take the bread

Go to diningtable

Put the bread on plate

**All subgoals completed**

✓ Success!
